ORNAMENTAL BRONZE LIMITED

In today's high tech-age of mass produced consumer goods, it is hard to find products that evoke an artisan's craftsmanship.

Ornamental Bronze has kept this fine tradition alive for 80 years by producing bronze memorials of unsurpassed craftsmanship and quality.

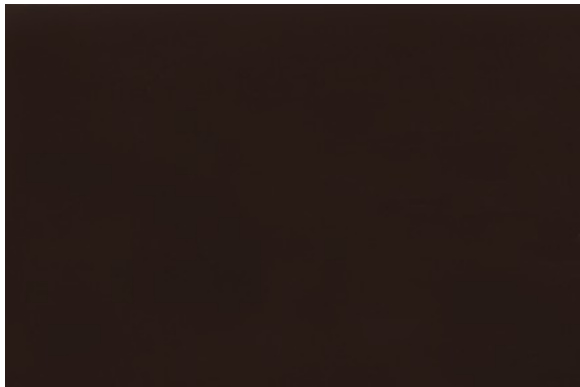

The design and lettering on every bronze memorial is hand-chased, highlighted and carefully polished. Each piece is finished in statuary bronze metal, the natural way, to maintain the warm hues which are unique to this metal.

The final effect is stunning, and to preserve this beauty, each bronze memorial is given an application of extremely durable and long lasting clear coat.

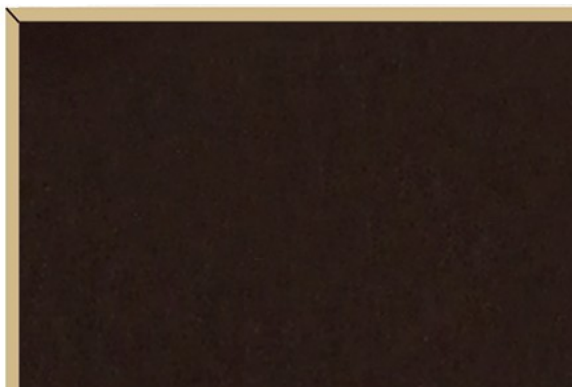

This brochure has been prepared to provide you with a sample of the memorials available and contains a number of our common designs & sizes. Please ask your dealer for more information, or ask about a "special" memorial plaque that you may wish to create for a loved one.

We take pride in our ability to satisfy your unique requirements.
